

Immersion History

What is it?

History taught (almost exclusively) in English.

What topics are covered?

The idea is that you learn about history topics not covered in the standard curriculum, such as East Germany (=DDR), China from Mao to Xi, the US civil rights movement and today's struggle for equality, or how Kosovo gained independence.

The famous "Trabi"

Mao Ze Dong

Xi Jin Ping

The flag of Kosovo

What about excursions?

The curriculum demands the visit of historical places on excursions. To study East Germany (DDR) we will go to Berlin, for the Council of Europe (human rights) we will go to Strasbourg. The archive work will take place at the University of Basel.

Brandenburg Gate in Berlin

Petite France in Strasbourg

What skills will you acquire? You will learn how archives work, to find sources and to analyse them, how to recognise and interpret propaganda such as current election posters or and how filter bubbles work in times of “alternative facts”.

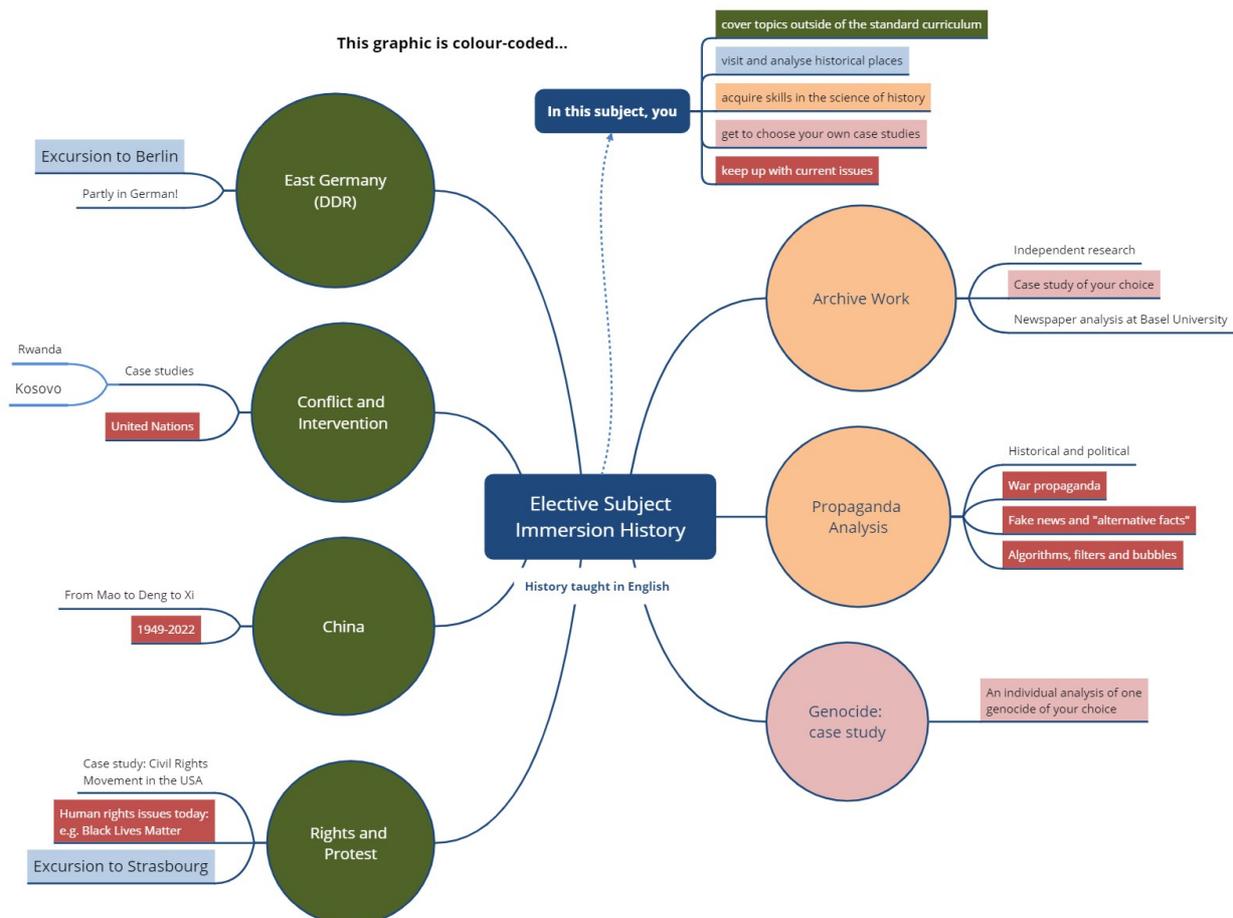

A newspaper archive

SVP poster 2018

In short:
